In 2043 I will be 37 and I will live on the coast of Sydney. My job will be a house designer; I say this because I now am pretty creative and like designing things. I will have a much shorter hair, but the styling will be the same as now.

In my beachfront house live my wife, my son Jack and 2 pet pugs. In my spare time I play with Jack and go swim in the ocean.

This is me in 2043!

Long black hair, eyelashes that flare, calm brown eyes, broad shoulders. Yep that's me in 2043! I'm 37 and I've started a family! There's my faithful husband and the three kids. Their ages are 8, 10 and 12. We live a busy and exciting life in Sydney! All the kids go to Warrawee Public School and my husband is a programmer. I teach at the school, yep you guessed it, Warrawee Public School! However, we live in the quiet suburb, Normanhurst which is a good 10 minutes away from Warrawee but we are happy with our house. We have a long level lawn with a vegetable and fruit garden next to it plus we have a large spacious house with lots of privacy. The house has five bedrooms, a laundry, a big open dining room, a modern kitchen and to top it all up, a garage with a seven seater car shining inside it. So that's it folks! That's my life in 2043!

I hope that's my future.

In 2043 I'll be hoping to move to New Zealand probably in Auckland I'll try to get a full time job working at a post office and when I'm wealthy enough I will open up an animation channel on YouTube. I would like to have a girlfriend so I'm not always alone and if not, I'll get a German shepherd or a Huskie or maybe even a Jack Russel.

I think I'll be at a average height and have a short haircut and I'll always be wearing warm clothes since it's so cold over there. Later in my life I want to retire my full time job and continue my YouTube career. I want to have a spacious kind of small house near my job that has a small room so I can record in.

In my spare time I will speak into a microphone and talk about past experiences and also animate them on a tablet

This is my soul dream of my future.

I am 36 and I live in a 2 story house and I have 2 kids. One is in year 1 and the other is 5 years old. I live in Sydney, NSW and I play cricket for Australia. I am 187cm tall and I train for every day

. My two kids are boys and I can tell that they are going to be good at sport. I wear a nice t-shirt and shorts in the summer and wear a tuxedo when I go to dinners with the cricket team and have lots of swims in my pool. I give my older boy catches and bats to practise for cricket all the time on Sunday and after his school. My boys run around all the time non-stop and they get very tired. Even after that they don't want to stop.

I also have a wife who I met on my holiday to the Gold Coast. I have a 5 seated ISUZU MU-X and I take my family to my parents' house on Saturday for lunch.

This is a really good life for me.

In 2043 I'll be working as a vet in Toowoomba. I know I will choose this career because I absolutely love animals and want to help them when they get sick. In Toowoomba I will live in a house with my Mum, husband and 2 kids. We will have a big garden with a tyre swing and a pool. We will have lots of fun together going places and traveling the world. I really want to go to Disneyland. I will be around 1.2-1.7 metres tall and I will never dye my hair. I will hardly ever wear a dress, only jeans/leggings and a shirt. I would always wear my earrings and my gold cross necklace. In my spare time I will draw or paint with my kids.

In the future I will be wearing shorts, singlets, t-shirts, jeans and thin pants. I will live in Queensland by the beach, and go swimming in the morning.

In 2043 I will be a vet looking after cats, dogs and birds all week and have Saturday and Sunday off. In my spare time I'll go and travel around the world.

What will I be in 2043? I think my life at age 37 will be pretty disastrous.

I will have a husband (if I even get one) and about two kids probably named... I don't know. That is because my mum and dad have 2 brothers and I have a sister so that makes that. I still probably have my mum and dad, but my sister will probably live somewhere else.

I will still be going on with the family business at the restaurant, or be a manga writer. In my spare time I will relax in my bed and listen to music. My kids will be like a swarm of bees because of my energetic force as a KID. Life will be pretty much normal, probably not having that much money. I will send my kids to Warrawee Public, since it was one of the best schools I ever went to.

I might be a you tuber like my sister, starting with animations, then Minecraft adventures and role plays. My children will have the blood of art just like I have.

So my life will be pretty much that... in 2043.

In 2043 I think I will be living in a house in Sydney with my wife and 2 kids and a boy Airedale terrier dog. I will be working in a fulltime job for Swiss Air where my dad works and I'll spend some money on a YouTube channel.

I will have finished playing rugby. I will have a beard and a beautiful moustache and wear shorts and a short sleeve t-shirt and under armour jumpers and a tuxedo for work.

That is my life in 2043

Here I am catching a wave in Burleigh with my kids Jeff and Bob. I am lying on the soft smooth burning sand. I run home with tanned arms , legs , and face.

When I eventually get home it takes me five minutes to get to my bedroom because my house is so big. I swing on my giant swing to land in my 50 metre pool. I never stop eating lollies. I keep my dad's job going as an electrician after just finishing my rugby career.

This is my dream!!!!!!!!!!

Alexander.W

In 2043, I will be travelling around the world with my wife and two kids. When I arrive at a new destination we will stay in a five-star hotel's penthouse while observing the view over the city. I will do all my travelling so I can learn all about the world. This will also help me with some of my jobs.

In 2043 for a job I will be an engineer/inventor/doctor/physicist/air traffic controller/LEGO employee (but not all at the same time). I will do one of my jobs a day with Sunday as my day off. I will do all these things because it will make me feel like I am paying my tribute to the world (a big tribute at that).

My family will consist of me (obviously), my wife and my 2 kids. A girl called Grace and a boy called Alexander.

For my job as an engineer, inventor and physicist, I will wear casual clothes with a pencil behind my ear. As a doctor I will wear white T-shirt and top with a badge that says my name. For air traffic controller I will wear a white T-shirt with buttons going down the middle and head phones to hear the pilot's messages. As a LEGO employee I will just wear casual clothes and a brain to hold all my ideas.

This is me in 2043!

31/8/2043-My birthday. I hold up my "I-Pad Pro 13,980", or whatever that number is. We don't have paper, as there were hardly any trees left. I reluctantly look out of the window. Instead of a forest, there are high-rise buildings and it seems more are coming up every day. I scan the outside world, and spot a small tree sapling. This only makes me think of when I turned 10-*I looked out of the window, seeing a forest of trees, and wondering what it would be like when I was older...*

I look down and feel my sea silk dress, silky and smooth. I soon hear a loud noise.

"Jenny! What was that for?"

"I didn't do anything, it was your fault, Cindy!"

I try to shout over them." Keep down the noise; you don't want to get in trouble on my birthday!"

Yes, those are my 2 children. They are twins, like someone's mirror image coming to life. They both have the same everything, but on the opposite side. I sigh and stare at a photograph of when we first bought this house. It is a beautiful 2 storey house, made of marble.

But then I remember the deadline of my book, so I spin around my chair to finish the last chapter of it.

My life in 2043!

In 2043, I will be a vet looking after pets or maybe working at Monika's Doggie Rescue centre. I will have one or two dogs but I prefer to have one dog because my family cannot look after two. I will be married and have one or two kids.

I will be living in Jindabyne, which is six hours away from Warrawee. In my house we will have one bunk bed, one visitor room, me and my husband's room, and also a swimming pool for my kids. I will have a mango tree, lemon/lime tree and an orange tree and my kids will learn horse riding.

I think my life will be good.
