INTRODUCTION

FACTS ABOUT SEAGULLS.
Did you know that seagulls eat fish,shrimp, clams and rodents.

Seagulls
can drink seawater
as special exocrine
glands located
above their eyes help
eliminate excess
salt from their body.

Buzzle.com

Seagulls are known as bandits but they technically just steal chips and KFC and McDonalds.

Some seagulls are capable of using tools.

5 REASONS TO PROTECT THEM...

We need to protect seagulls because:

They help plants by spreading seeds.

They are an important part of the food web.

They control the number of insects.

They are important part of the beach environment.

They clean up people's scraps at the beach.
